The Management Development and Productivity Institute (MDPI) presents the 2026 Management Training Programme (MTP) to its valued clients and the general public for continuous self-development and the capacity building of their staff.

In today's dynamic business landscape and competitive world, organisations need to distinguish themselves in their products and service delivery. This requires the development of competent workforce and efficient organizational systems.

MDPI in alignment with its mandate, is committed to helping both public and private sector organisations to develop the capacity of their labour force for improved productivity. The 2026 MTP has been developed in response to current business trends, to deliver cutting-edge solutions to organizational challenges and capacity-building needs of our clients.

Our training programmes are adaptable, offering the flexibility to be conducted virtually, in-person or through a blend of both, tailored to the specific needs of our client.

We take this opportunity to thank our esteemed customers for their continued support, contributions and patronage. We hope 2026 will be a year of close cooperation to ensure that the training received would result in improving productivity at the workplace.

The Management Development and Productivity Institute (MDPI) is a sub-vented Agency under the Ministry of Labour, Jobs and Employment (MLJE). The Institute was established on 26th October, 1967 under a joint Ghana Government, United Nations Development Programme (UNDP) and International Labour Organisation (ILO) Project.

The MDPI replaced its forerunner, the National Productivity Centre (NPC) which was established in June 1964 as part of the then National Planning Commission. Legislative Instrument (LI) 1077 of 2nd July 1976 incorporated the MDPI as a parastatal. The Institute was formally handed over to the Ghana Government by the UNDP and ILO in 1977 when the joint sponsorship ended.

Mission Statement

The Management Development and Productivity Institute exists to promote increased productivity, in both public and private organizations, to enable them contribute to the growth of the economy on a sustainable basis. MDPI achieves this through Productivity Improvement Activities, Management Development Programmes, Research and Publications.

Vision Statement

A market leader in the development of productivity improvement strategies and the promotion of best management practices.

Objectives

The three main objectives of MDPI are:

- a) To promote increased productivity in the agricultural, industry and service sectors of the economy;
- b) To introduce suitable management practices and techniques to our clients;
- c) To improve and develop the standard of management in all aspects and at all levels of organisations.

Corporate Values

- Professionalism
- Integrity
- Teamwork
- Respect
- Excellence
- Accountability
- Cooperation

Functions

The core functional areas of the Institute are:

- Management Development and Training
- Management Consultancy and Advisory Services
- Business and Management Research Services
- Productivity Studies and Performance Improvement Techniques

Departments

There are four technical departments:

- General Management
- Marketing Management
- Financial Management & Management Information Systems
- Industrial Engineering & Productivity

Management and Training

Development

The four departments organize various courses each year. These are listed in the annual Management Training Programme (MTP). The training is in two forms:

- **Regular Training**

This form of training is supply-driven. Participants are drawn from different organisations who enroll in courses that they find beneficial to them and their organisations. The courses are designed based on the identified needs of client organisations in our target market.

- **In-Plant/Customized and Project-Related Training**

This form of training is demand-driven. The clients identify the training needs of their staff (and most of the time with the assistance of MDPI) and request for specific courses to meet those needs. The courses are developed and designed with a lot of inputs from the clients. This type of training is very flexible in that it is organized at the convenience of the client.

Management Consultancy and Advisory Services

Our consultancy and advisory services cover the following areas:

- Feasibility Studies

- Business Plans/Corporate Strategic Plan
- Organizational Restructuring and Re-organisation
- Performance Management System
- Human Resource Management
- Organizational System Review and Development:
 - o Organizational Structure
 - o Scheme of Service
 - o Job Description
 - o Conditions of Service and Administrative Manual
- Design and Installation of Accounting Systems
- Management Audit
- Records Management and Communication Policy
- Wages and Salaries Administration
- Employee Recruitment, Selection and Orientation of new recruits in organizations, etc.

Management Policy Research

MDPI undertakes Policy Research to enable Management and Policy Makers take decisions based on evidence and reliable data.

Productivity Studies & Performance Management

The MDPI, by Legislative Instrument (1077) 1977, is mandated to undertake productivity studies in key sectors of the Ghanaian economy aimed at generating evidence-based productivity indicators to facilitate decision making process. This is to enhance productivity and competitiveness at enterprise, industry (sectoral), national and international levels.

Clients

The MDPI's clients are drawn from Ghana and the West African sub-region, which includes: The Gambia, Liberia, Sierra Leone and Nigeria.

MDPI/ILO-SCORE Programme

Sustaining Competitive & Responsible Enterprise (SCORE) is a global ILO development cooperation programme that promotes productivity, competitiveness and decent work in emerging economies. The programme is assisting Governments, Industries, Associations and Trade Unions in Africa, Asia and Latin America to develop export and domestic industrial sectors with particular focus on Small and Medium Enterprises (SMEs).

SCORE is a practical training and in-factory consulting programme that seeks to improve productivity and working conditions in SMEs.

The MDPI, in collaboration with the International Labour Organisation (ILO) has been executing the Sustainable Competitive Responsible Enterprise (SCORE) training programme since 2013 which was initially sponsored by the Norwegian Agency for Development Cooperation (NORAD) and the Switzerland State Secretariat for Economic Affairs (SECO). The German Federal Ministry of Economic Co-operation and Development (BMZ) through GIZ has been funding the programme since 2021 with some support from ILO.

The SCORE programme emphasises international best practices in the manufacturing and service sectors and helps SMEs to participate in global supply chains. The programme endorsed by the Government of Ghana, collaborates with employers and workers' organizations to address key constraints that hamper growth in specific industries. It further highlights best practices in vocational, technical and management skills in the development of SMEs. In 2018 MDPI was mandated by ILO to be the lead Implementing Partner (IP) to run the SCORE programme for SMEs in Ghana.
